| Course Description | This course is a survey of Japanese popular culture with particular topics covered as anime manga, fashion, music, art, and sports. Part of the course will focus on Japanese animation within a historic and popular cultural perspective. Both anime and manga will be examined with particular emphasis on the art, culture and national and international popularity. In addition, we will cover the history of how Japan took over the video game market, became a fashion powerhouse, and some of its popular sports such as baseball, professional wrestling, and combat sports, and how they became popular domestically and worldwide.The course meets for a minimum of 45 hours per two week period. Students receive 4 Oberlin University credits with a minimum grade of a D. | | | | |
| Course Objectives | By the end of the session, students should be able: 1) Have a better understanding about Japanese culture through popular culture themes. 2) Be able to connect popular cultural themes to Japanese ways of thought, perception, ideals, history, and behavior. 3) Understand more about the popular anime works and develop a critical analysis of material and its authors. 4) Understand the historic themes of anime and manga and how they tie into Japanese culture. 5) Understand how video games and fashion were influenced by the West, and how Japan appropriated the mediums into the identities of their youths and popularized them worldwide. 6) How baseball came to Japan and how an American past time become popular. 7) How professional wrestling shaped the spirit of the Japanese after World War II and how it influenced Mixed Martial Arts. 8) Develop presentation skills through discussion and in class assignments. | | | | |
